

TECHNICAL DATA SHEET

Jet Sweep™

NOTICE

Make sure you have an up-to-date technical data sheet by referencing our website: SRWProducts.com

DESCRIPTION

Jet Sweep™ is a versatile sprayer attachment that can be easily used with a variety of tools, including push brooms, floor squeegees, deck brushes, and more, opening up a world of possibilities for your cleaning and maintenance needs.

With Jet Sweep™, you can transform tasks that typically require two people into a manageable one-person job. Many jobs require constant water throughout the process, such as cleaning. Jet Sweep™ keeps the work area consistently wet, allowing you to scrub without worry of cleaners drying out.

With endless possibilities, clean your paver patio, wash your garage floor, scrub your deck, or clean the siding on your house, to name a few.

APPLICATIONS

- WetLok™ Installation
- Garage Floors
- Driveway
- Patio Cleaning with SRW Products Cleaners
- Decks
- Siding
- Pool Deck
- Outdoor Jobs

PROPERTIES

- Quickly attach to a variety of handled tools like Push Brooms, Squeegees, Deck Brushes, and more
- Sturdy, all-metal design
- Works with any garden hose
- Quick-connect adapters for easy tool-swapping
- Shut-off valve for convenience

USER TIPS

- Water should be falling just in front of the broom or squeegee head, not behind or onto the head.
- Shut-off valve can be used as a Flow Control if water pressure is too high or low.
- Disconnect hose and store with shut-off valve open.
- Jet Sweep is not a substitute for a pressure washer.

INSTALLATION INSTRUCTIONS

1. 1 1/8" handles work best; no sleeve is needed. For 1" handles and 7/8" use one or two sleeves stacked, respectively.
2. Unscrew the clamp and situate it onto the handle above the broom or squeegee head. Start screwing back into the clamp.
3. Tighten Jet Sweep™ onto handle with a 13mm wrench or crescent wrench. Fan nozzle should be about 6" up from the broom or squeegee head.
4. Attach female quick connect end onto your garden hose, be sure there is a gasket in the female end. Press quick connect onto Jet Sweep and close shut-off valve.
5. Turn on water. If desired, attach extra quick connect onto Sprayer Nozzle for easy tool switching during the job.
6. Open the shut-off valve and ensure the water falls correctly in front of the broom or squeegee, not behind or onto the head. Adjust as needed.

TRANSPORT

For more information on the proper handling and transportation of this product, please refer to the latest version of the Safety Data Sheet (SDS). Visit SRWProducts.com for an up-to-date version of this product's Safety Data Sheet (SDS).
