

WE RE CAP S LANDSCAPE ACCESSORIES

Our Story

SRW Products is a family owned and operated business with 35+ years of experience and leadership in landscape and hardscape products. We have earned a solid reputation for providing exceptional quality products and outstanding customer service. Our dealer-based company continues to thrive because of our team's commitment to helping your business succeed.

We provide so much more than products, because we believe in people and partnerships. Our Territory Sales Representatives and Customer Service Team have formed long-lasting relationships by getting to know their customer's individual needs and providing customized solutions.

Our Product Managers not only seek new and innovative products, but also provide educational materials and expert consultation to assist you in serving your customers. The entire SRW Products team is knowledgeable and goes the extra mile to enhance your success.

We appreciate your business and are especially grateful for future opportunities. At SRW Products we promise to continue to focus on our key priorities of **people**, **products**, and **partnerships**.

ADHESIVES

SUPERIOR STRENGTH SOLVENT-BASED™ ADHESIVE

FEATURES

- Superior Strength and Longevity
- Works on wet or frozen surfaces
- Extrudes down to 10°F
- Works on most common hardscape and construction materials
- Interior/Exterior Applications
- VOC Compliant Option

APPLICATION

- Retaining Walls
- Pavers/Block
- Natural Stone
- Metals/Wood
- Firepits

COVERAGE

- 1/4" Bead: 10 oz 32 ft, 28 oz 89 ft
- 3/8" Bead: 10 oz 14 ft, 28 oz 35 ft

See page 96 for ordering information

RAPID-SET POLYURETHANE™ ADHESIVE

FEATURES

- 1 hour set time: 24 hour full cure
- Designed for hardscape and construction projects
- Suitable for dry or damp surfaces
- High temperature compatible up to 400° F
- Premium, long-lasting strength
- Interior/Exterior Applications
- VOC Compliant

APPLICATION

- Firepits
- Retaining Walls
- Pavers/Concrete
- Pool Copings
- Foam/Vinyl/PVC
- Brick
- Metals/Wood
- Natural Stone
- Non-porous Substrates

COVERAGE

- 1/4" Bead: 10 oz 32 ft, 28 oz 89 ft
- 3/8" Bead: 10 oz 14 ft, 28 oz 35 ft

See page 96 for ordering information

VERTICAL INSTANT LOCK™ ADHESIVE

FEATURES

- Instantly locks building materials in place vertically or horizontally
- Low Odor
- 10 minute working time
- Quick curing and non-corrosive
- V-notch nozzle for consistent bead
- *Requires a caulking gun with a minimum 14:1 thrust ratio*
- Interior/Exterior Applications
- VOC Compliant

APPLICATION

- Veneers
- Household Repairs
- Natural Stone
- Manufactured Stone
- Brick, Block, and Pavers
- Metals/Wood
- Glass and Ceramic Tile
- Dry Stack
- Masonry
- Outdoor Kitchens

COVERAGE

- 210 linear inches

See page 96 for ordering information

SF-8™ ADHESIVE

FEATURES

- Fastest set-up time on the market
- Designed for construction and hardscape projects
- High temperature compatible up to 250° F
- Premium long-lasting strength
- 1 can = 20+ traditional adhesive tubes with a 3/8" bead
- 8 - minute tack free
- Interior/Exterior Applications
-

APPLICATION

- Retaining Walls
- Pavers
- Concrete
- Natural Stone
- Brick
- Porcelain
- Steel/Metal
- Aluminum
- Vinyl/PVC
- Wood/Plywood
- Composite Materials
- Drywall

COVERAGE

- 3/8" bead = 600 linear ft

See page 96 for ordering information

SEAMS RIGHT™ TURF ADHESIVE

FEATURES

- Moisture Curing
- Polyurethane
- Maintains flexibility throughout project life
- Weather Resistant
- Fast Setting
- Interior/Exterior
- VOC Compliant
- Green Pigment

APPLICATION

- Synthetic Turf
- Putting Greens
- Pet Areas
- Playgrounds
- Landscaping

THE STRENGTH OF SUPERIOR STRENGTH SOLVENT-BASED™ ADHESIVE

Chemical Makeup of Solvent-Based Adhesives

Solvent-based adhesives cure through the evaporation of the solvents within the adhesive. What makes this type of adhesive so strong is that the solvents push away any moisture from where the adhesive is placed on the substrate, allowing it to bond to even wet surfaces.

Our Superior Strength Solvent-Based™ Adhesive has green strength within 3-4 hours of application and is fully cured in 3-7 days. However, this curing process can be hastened by flashing. Green strength is when the pieces no longer readily move or separate. Once cured, this adhesive is so strong that the paver or substrate will fail before the adhesive!

USE THE PROCESS OF FLASHING WHEN USING SUPERIOR STRENGTH SOLVENT-BASED™ ADHESIVE

Superior Strength Solvent-Based™ adhesive can build early grab strength by flashing your block or cap.

Flashing is a process where you extrude adhesive and place the block or cap on, immediately lift the top block or cap at an angle for two seconds and replace it. This will expose surface area within adhesive to release up to 50% of solvents and provide early strength.

CAULKING GUNS

PREMIUM

FEATURES

- 18:1 Thrust Ratio
- Professional Grade
- Spout Cutter/Seal Puncture Tool
- Revolving Barrel/Zinc Handle
- Heavy-duty Welded Design
- Recommended for VIL Vertical Instant Lock™
- Ergonomic Handle
- Revolving barrel

STANDARD

FEATURES

- 10:1 Thrust Ratio
- Ladder Hook and Thumb Release
- Smooth Rod Cradle
- Heavy-duty Steel Construction
- 28 oz guns include a seal puncture and spout cutter

ECONOMY

FEATURES

- 3:1 Thrust Ratio
- Non-Drip for Easy Cleanup
- Smooth Rod Cradle
- Heavy-duty Steel Construction
- 28 oz guns include a seal puncture and spout cutter

Caulking guns Available in 10 and 28 oz sizes

SF-8™ CLEANER

FEATURES

- Twists on the standard or premium dispenser gun for easy cleaning
- Includes spray nozzle for spot cleaning on the job site
- 14 oz can for extended use

See page 96 for ordering information

Be sure the substrate can support the weight. To calculate the recommended amount of linear inches (cm) of adhesive needed, multiply the weight in lbs. (kg) by 2.33 (13.05).

CLEANERS

PW PAVER WASH™

FEATURES

- Opens surface pores for optimal sealer bond
- Removes polyhaze, efflorescence and ground-in dirt
- Restores original paver color
- Contains no muriatic acid or hydrochloric acid
- Dilute 1:1 Ratio

APPLICATION

- Concrete Pavers
- Clay Pavers
- Block Retaining Wall
- See chart on page 17

COVERAGE

- Covers up to 200 sq. ft. per gallon

See page 96 for ordering information

M³C MOLD, MOSS AND MILDEW CLEANER™

FEATURES

- Kills mold, moss, mildew, lichen and algae from the inside out
- Non-acidic, no-bleach formula
- Dilute 5:1 Ratio

APPLICATION

- Concrete Pavers
- Clay Pavers
- Wetcast
- Granite/Quartz
- Marble/Travertine
- Limestone
- Bluestone/Sandstone
- Block Retaining Wall
- Manufactured Stone
- Stamped Concrete
- Brick
- Shingles
- Asphalt
- Wood
- Vertical Applications
- See chart on page 17

COVERAGE

Covers up to 2,200 sq. ft. per gallon of concentrate

See page 96 for ordering information

EF EFFLORESCENCE REMOVER™

FEATURES

- Dissolves mineral deposits (efflorescence)
- Restores original surface color
- Contains no muriatic acid or hydrochloric acid
- Dilute 1:1 Ratio

APPLICATION

- Concrete Pavers
- Clay Pavers
- Block Retaining Wall
- See chart on page 17

COVERAGE

- Covers up to 200 sq. ft. per gallon

See page 96 for ordering information

FEATURES

- Removes ground-in dirt, light grease and oil
- Easy to use, concentrated solution
- Contains No Acid
- Dilute 1:1 Ratio

APPLICATION

- Wetcast
- Granite/Quartz
- Marble/Travertine
- Limestone
- Bluestone/Sandstone
- See chart on page 17

COVERAGE

- Covers up to 200 sq. ft. per gallon

See page 96 for ordering information

CLEAN BEFORE SEALING FOR THE BEST BOND

Removing all surface stains is essential to getting the best-looking seal. If needed, start by using one of the following to remove specific issues.

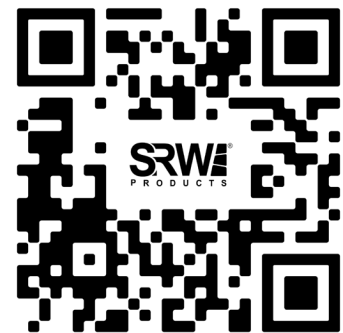

- **EF Efflorescence Remover™**
- **M³C Mold, Moss, and Mildew Cleaner™**
- **CDX Cleaner and Degreaser X-treme™**
- **RE Rust Eliminator™**
- **OC Organic Stain Cleaner™**

Whether you use one of the above spot cleaners or not, SRW Products **always recommends** using **PW Paver Wash™** or **DW Dual Wash™**, depending on the surface, prior to sealing a project. Our cleaning solutions pull the dirt and debris out, leaving a perfect surface for the sealer to bond. While pressure washing drives dirt and debris deeper into the pores.

General Purpose Cleaners

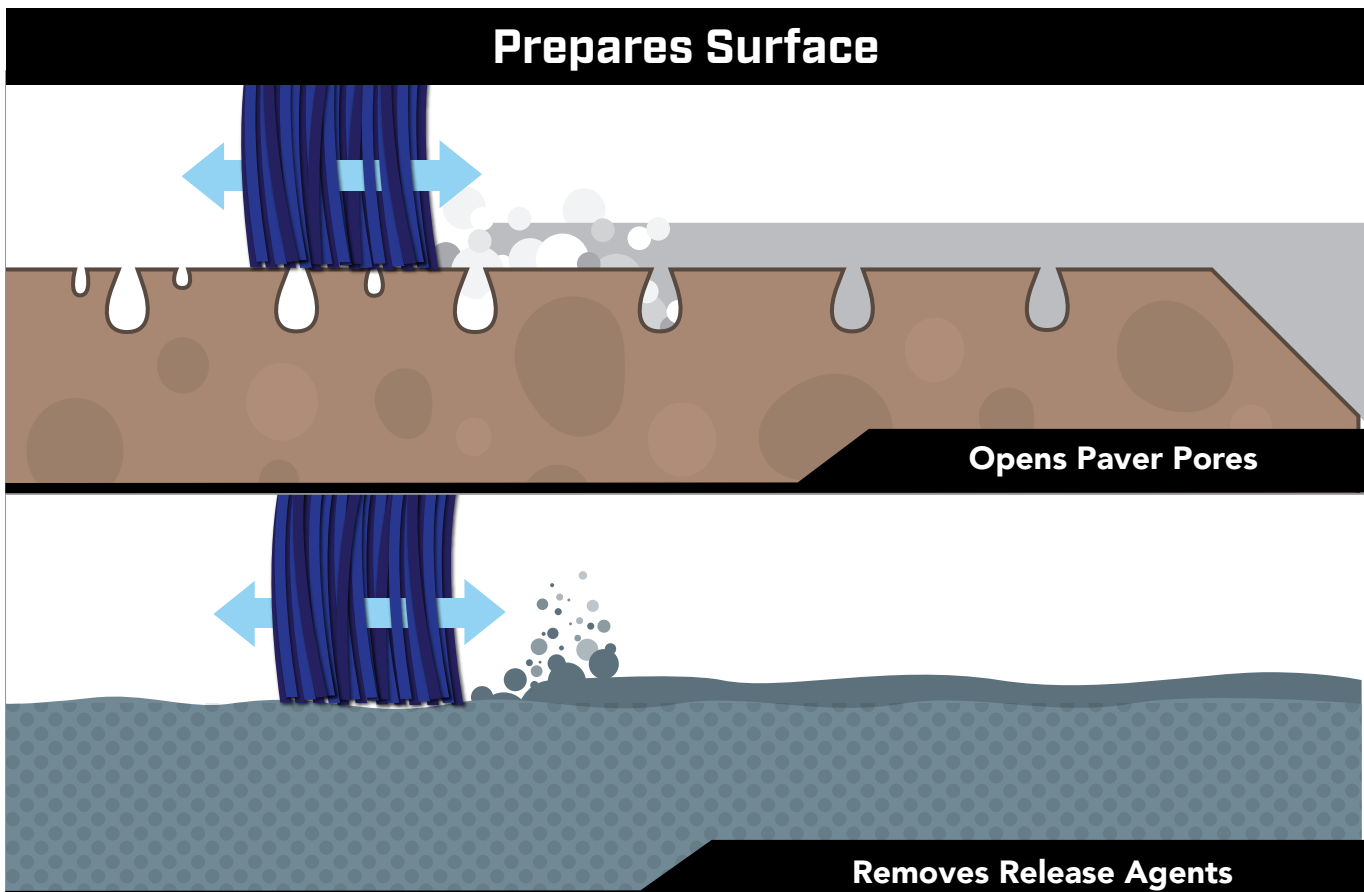

LEARN
MORE HERE

POWERFUL CLEANERS FOR ANY SURFACE

Beautiful and long-lasting hardscape projects require the best cleaners and degreasers for optimal bonding before sealing.

The best seal starts with a clean surface, and each hardscape surface has distinctly different qualities. At SRW Products, we have the cleaners you need from our general purpose cleaners that open up pours and remove ground-in dirt to our specialty cleaners that remove rust from pavers or residue from wetcast. We've designed our full line of cleaners to give you the best cleaning power for each surface type and situation.

SEALERS

PS PENETRATING™

**FEATURES**

- Water-based
- Invisible/Natural-look finish
- CARB Compliant
- Minimizes salt and freeze/thaw damage
- Interior/Exterior Applications

APPLICATION

- Concrete Pavers
- Clay Pavers
- Concrete Permeable Pavers
- Block Retaining Wall
- Manufactured Stone
- See chart on page 24

COVERAGE

- Covers up to 200 sq. ft. per gallon

PAVER SEAL

See page 97 for ordering information

LG LOW GLOSS™

**FEATURES**

- Water-based
- Low-gloss finish
- Color-enhancing
- Minimizes salt and freeze/thaw damage
- Stabilizes joint sand from washout, weeds and ants
- Provides UV Protection
- Interior/Exterior Applications

APPLICATION

- Concrete Pavers
- Block Retaining Wall
- Manufactured Stone
- See chart on page 24

COVERAGE

- Covers up to 150 sq. ft. per gallon

PAVER SEAL

See page 97 for ordering information

HG HIGH GLOSS™

**FEATURES**

- Water-based
- High-gloss, wet-look finish
- High Color Enhancement
- Stabilizes joint sand from washout, weeds and ants
- Minimizes salt and freeze/thaw damage
- Provides UV protection
- Exterior Applications

APPLICATION

- Concrete Pavers
- Block Retaining Wall
- Manufactured Stone
- See chart on page 24

COVERAGE

- Covers up to 150 sq. ft. per gallon

PAVER SEAL

See page 97 for ordering information

PSX PENETRATING X-TREME™

FEATURES

- Water-based
- Invisible/Natural-look finish
- Minimizes salt and freeze/thaw damage
- Ideal for high-traffic areas
- Interior/Exterior Applications

APPLICATION

- Concrete Pavers
- Clay Pavers
- Concrete Permeable Pavers
- Wetcast
- Block Retaining Walls
- Manufactured Stone
- See chart on page 24

COVERAGE

- Covers up to 200 sq. ft. per gallon

CHOOSE YOUR FAVORITE SHEEN OF PROTECTION

Natural Look^{PS or PSX}

Penetrating sealers create an invisible protective barrier.

Color Enhancing^{LG or LGX}

Low Gloss sealers provides a color enhancing sheen.

Wet Look^{HG or HGX}

High Gloss sealers provide protection with a wet look.

PRX PAVER RESTORE X-TREME™

FEATURES

- Solvent-based
- High-gloss, wet-look, restoring pigmented sealer
- Restores faded pavers with color-reviving technology
- Minimizes salt and freeze/thaw damage
- Provides UV Protection
- VOC Compliant Option
- Exterior Applications

COVERAGE

- Covers up to 250 sq. ft. per gallon

APPLICATION

- Concrete Pavers
- Concrete Permeable Pavers
- Granite/Quartz
- Marble/Travertine
- Limestone
- Exposed Aggregate Concrete
- Intended for specific surface colors: Charcoal, Red, Brown, and Tan
- See chart on page 24

Read instruction regarding surface color options.

SPECIALTY SEAL

See page 97 for ordering information

S-PS STONE PENETRATING™

FEATURES

- Solvent-based
- Invisible/Natural-look finish
- Minimizes salt and freeze/thaw damage
- VOC Compliant Option
- Exterior Applications

APPLICATION

- Granite/Quartz
- Marble/Travertine
- Limestone
- Bluestone/Sandstone
- Concrete Pavers
- Clay Pavers
- Concrete Permeable Pavers
- Wetcast
- Block Retaining Wall
- Manufactured Stone
- See chart on page 24

SPECIALTY SEAL

See page 97 for ordering information

JS

FEATURES

- Water-based
- Natural-look/Matte finish
- 2-in-1: seals surface and stabilizes joints
- Eliminates Joint Washout
- Reduces weeds and ant infestation
- Resists moss, mold and mildew growth
- Residential and Commercial

APPLICATION

- Concrete Pavers
- Wetcast
- Clay Pavers
- See chart on page 24

COVERAGE

- Joint widths up to ¾"
- Seals and stabilizes standard joints: Covers up to 80 -120 sq. ft. per gallon
- Cured polymeric sand: Covers up to 125 sq. ft. per gallon

SPECIALTY SEAL

See page 97 for ordering information

SR SLIP RESIST™

**FEATURES**

- Granular additive to improve slip resistance
- Adds Invisible Grip
- Can be used with all SRW Products film-forming sealers
- Can be used with all low gloss and high gloss SRW Products sealers
- 1 pouch per 1 gal

APPLICATION

- Specialty Seal: PRX
- Premium Seal: LGX, LGX VOC, HGX, HGX VOC, DG, DG VOC
- Paver Seal: LG, HG

See page 98 for ordering information

SRW SLIT FOAM ROLLER™

**FEATURES**

- Water-Based
- Applies SRW Products sealers evenly
- Works great on textured surfaces
- Remains spongy and will not compress

APPLICATION

- Use with any water-based sealers.

See page 98 for ordering information

SRW SLIT FOAM ROLLER™

**FEATURES**

- Applies SRW Products sealers evenly
- Works great on textured surfaces
- Remains spongy and will not compress

APPLICATION

- Works with all SRW Products sealers.

See page 98 for ordering information

V.S

SRW PRODUCTS CLEANERS VS. PRESSURE WASHING

SRW Products PW and DW effectively open the pores of your pavers, allowing sealers to bond and penetrate better. These cleaners also help remove construction debris, dust, and efflorescence.

Pressure Washing without a cleaner drives dirt deeper into the pores leaving the potential for reduced bonding of the sealer.

ONE GALLON SPRAYER

FEATURES

- 1-Gallon funnel-top, translucent tank for easy filling and cleaning
- Compatible with many SRW Products sealers, cleaners, and stabilizers
- 12" Curved wand with shutoff
- 3 nozzles for Fine, Medium, and Coarse/Viscous liquids
- Flexible and Reinforced 34" Hose
- Ergonomic handle for easy pumping and carrying
- Chemical Resistant Hose and Seals

APPLICATION

- Specialty Seal: S-PS, SGX, JS, PRX
- Premium Seal: PSX, LGX, HGX, DG
- Paver Seal: PS, LG, HG
- SRW Cleaners: M³C, Xylene

See page 98 for ordering information

HEAVY-DUTY CONSTRUCTION SPRAYER

FEATURES

- Use with SRW Product Sealers
- Galvanized Steel
- Can handle up to 35% solids
- Built for commercial applications

APPLICATION

- Works well with all SRW Products sealers.

See page 98 for ordering information

SEALER DISPLAY

FEATURES

PRIOR TO SEALING A SURFACE

Whether using a penetrating sealer or a film forming sealer, SRW Products strongly recommends a **two** person **two** step application.

1

PERSON ONE:

Spray the sealer to ensure an even coat.

2

PERSON TWO: Roll the surface with one of our select slit foam rollers to ensure sealer is evenly distributed and does not pool in the joints or texture of the material in which it is applied.

PROTECT YOUR PROJECTS AND GROW YOUR BUSINESS

Seal your hardscape surfaces to protect, enhance and restore.

In the images shown on the right, you can see how unsealed pavers allow moisture and contaminants to seep into the surface. The SRW Products sealed paver beads the salt water on the surface, allowing it to be easily brushed or cleaned away.

WHY SEAL? →

PREVENT DAMAGE FROM:

- ▶ Salt/Acid Rain
- ▶ Surface Erosion
- ▶ Pool Chemicals
- ▶ Deep Staining
- ▶ Color Fade
- ▶ Freeze/Thaw

Sealed with SRW Products Penetrating sealer

SEALED

VS

UNSEALED

BACK ROLLING SEALERS

When spraying sealer onto pavers, back rolling will prevent the unwanted pooling of sealer on your project.

POPULAR**

FEATURES

- 3-point interlocking connection for maximum strength
- Open footprint allows for proper drainage and encourages root development along the edge of the project
- Unique, Patent-pending design, injection molded design
- 0.210" wall thickness with heavy-duty gussets
- 7' 9" length x 1 7/8" height
- Stacking pins for easy transport and shipping
- 100% Recycled HDPE with added UV resistance

APPLICATIONS

- Straight and curved edges
- Foot traffic or light duty vehicle traffic projects
- Paving stone installation
- Traditional Base Installation
- For residential and light-duty commercial applications
- Use with a gravel pathway and SRW Path Stabilizer™
- Paver heights of 2 3/8" - 3" 1/8" (60-80mm)
- For use with spikes or stakes

COVERAGE

- One bundle (24 peices) = 187.5 linear feet
- One pallet = 5250 linear feet (28 bundles, 672 peices)

See page 98 for ordering information

CRETE-RAIL™

FEATURES

- Fiber reinforced for maximum strength
- Fast Set Time
- Polymer-modified for flexibility to withstand freeze/thaw
- Residential or light commercial use
- Designed for all climates
- Creates solid interlock for projects

APPLICATION

- Curved, straight or irregular edges
- Pavers and Permeable Pavers
- Natural Stone and Wetcast
- Driveways, Paths and Patios
- Traditional, Open Grade/Permeable Base Installations

COVERAGE

- One 50 lb. bag covers 13 - 17 linear feet

See page 98 for ordering information

UNIVERSAL PAVER RAIL™

FEATURES

- Permanent and invisible barrier between hardscapes and other landscape materials
- Product height 1 - 7/8"

APPLICATION

- Straight and curved applications
- For use with spikes, staples or stakes

See page 98 for ordering information

FLEX PAVER RAIL™

FEATURES

- Most Flexible Option
- Product height 1 - 7/8"

APPLICATION

- Straight and curved applications
- For use with spikes or staples

See page 98 for ordering information

LOW PROFILE PAVER RAIL™

FEATURES

- Ideal for installation against porcelain, wetcast or natural stone to prevent shifting
- Product height 1 - 3/16"

APPLICATION

- Straight and curved applications
- Low profile applications
- For use with spikes, staples or stakes

See page 98 for ordering information

BENDA BOARD® FLEX

FEATURES

- Easy to Install
- Kid and pet safe
- Versatile and Durable
- Product height 3.3"

APPLICATION

- Landscape Edging
- Tree Rings
- Pathway Border
- Concrete Form Boards

See page 98 for ordering information

AVAILABLE IN 2 COLORS

TEAK

BLACK

4 Pack of stakes are now available. See page XX for ordering Details

DON'T FORGET TO SECURE THE EDGE OF YOUR PAVER PROJECT WITH SPIKES.

Spikes should be placed every one foot on the paver rail and every 8 inches when going around a curve or corner.

Smooth Spikes are the most commonly used spikes to secure paver edging.

Spiral Spikes have a greater surface area allowing for more contact with the base material.

Bright Spikes can rust into the base material over time locking the spikes in adding to their holding power.

Galvanized Spikes resist rust, making maintenance and repairs easier.

JOINTING SAND

PAVERMATE Z3™

FEATURES

- **Zero Haze:** Clear polymer technology sets you up for a haze-free project.
- **Zero Dust:** Specially mixed to bind polymers and sand, reducing fines and creating a dust-free install.
- **Zero Problems:** Rain safe in just 10 minutes. Fastest set up time in the market helps with unforeseen weather.

APPLICATIONS

- Concrete Pavers
- Driveways
- Pool Decks
- Patios and Walkways
- Concrete Overlays and Non-Overlays

COVERAGE: FOR JOINTS 1/16" - 2"

- Narrow Joints: 55 - 75 sq. ft.
- Wide Joints: 20 - 30 sq. ft.

See page 98 for ordering information

FEATURES

- Wet applied jointing sand
- Pre-mixed and ready to use
- Use with open grade/permeable or traditional base
- Permeable
- Can be installed in the rain
- Freeze safe through curing
- Easy to use, simply brush into joints and settle with water
- Resists weeds and plant growth
- No Activation Needed

APPLICATIONS

- Light-Duty Residential Driveways
- Porcelain
- Concrete/Clay Pavers
- Patios and Walkways
- Natural Stone
- Pool Decks
- Wetcast
- Terracotta

COVERAGE: FOR JOINTS 1/8" - 5"

PAVERMATE Z3™

Activation

Working in sections up to 200 sq. ft. (18.58 sq. m.), water the section for a total of 2 minutes using all **three** applications of water below.

Do not allow the section to dry during the 2-minute watering:

MIST: Use a hose with a sprayer attachment set to "mist" or a similar light setting. Mist the area until the surface is wet.

SHOWER: Next, set the hose to "light shower" to allow more water over the area. Repeat the shower **two** times over the section.

Use a screwdriver to test for proper moisture depth of at least 1" (2.54 cm). If depth is not achieved, immediately wet the area with a shower setting.

Once moisture depth is achieved, blow off excess water using a leaf blower.

JET SweepTM

Great for use with WetLok. JetSweep helps allow constant water flow without the need to hold the hose and broom at the same time.

STABILIZERS

SRW PATH STABILIZER™

**MOST
POPULAR**

FEATURES

- Stabilizes Pathways and Patios
- Liquid bonding agent that controls dust
- One easy-to-use formula ideal for both commercial and residential applications
- Minimizes tracking and weed growth

APPLICATIONS

- Decomposed Granite
- Crushed Stone 3/8"–1/4" minus
- Pathways and Patio Areas

COVERAGE

- **RESIDENTIAL:** Up to 75 sq. ft. per 5 gallons (6.97 sq. m per 18.93 liters).
- **COMMERCIAL:** Up to 50 sq. ft. per 5 gallons (4.65 sq. m per 18.93 liters).

See page 99 for ordering information

JS JOINT STABILIZER™

FEATURES

- Water-based
- Joint widths up to 3/4"
- 2-in-1: seals surface and stabilizes joints
- Eliminates Joint Washout
- Reduces weeds and ant infestation
- Natural-look/Matte finish
- Resists moss, mold and mildew growth
- Residential and Commercial
- See chart on page 36-37

APPLICATION

- Concrete Pavers
- Wetcast
- Clay Pavers

COVERAGE

- *Seals and stabilizes standard joints:*
Covers up to 80 -120 sq. ft. per gallon
- *Cured polymeric sand:*
Covers up to 125 sq. ft. per gallon

See page 99 for ordering information

MULCH STABILIZER™

FEATURES

- Locks Mulch in Place
- Easy to Use
- Enhances Color
- Prevents Fading
- Sprays white, dries clear
- Flexible Bond
- Helps prevent weed growth

APPLICATIONS

- Colored and Natural Mulch
- Synthetic Mulch
- Pine Straw
- Sand and Dirt

COVERAGE

- Covers up to 200 sq. ft. per gallon

See page 99 for ordering information

SRW ROCK BINDER™

FEATURES

- Use on sand or dirt to control dust in decorative areas
- Surface remains flexible and permeable
- Easy to apply with sprayer (purchased separately)
- Reaches full bond in 24-48 hours
- Allows surfaces to drain and breathe
- Environmentally safe, Low VOC and EPA compliant
- Non-toxic and Breathable
- Safe for Kids, Plants , and Animals
- Reduces Landscape Maintenance
- Controls Dust and Erosion

APPLICATIONS

- Pebbles, Light Rock and Gravel
- Pea Gravel
- Decomposed Granite
- Chip Stone
- Sand and Dirt

COVERAGE

- Covers up to 200 sq. ft. per gallon (18.58 sq. m per 3.78 liters)

See page 99 for ordering information

FUGENSAND

Jointing Sand & Stabilizing Sealer

Ideal for driveways and interlocking pavers

- 2 in 1 stabilizer/sealer
- Pressure washer safe
- No cement haze/residue
- Works with tight paver joints
- Same installation as poly sand but categorically stronger

Pressure Washer Safe

See page 99 for ordering information

ECOFINE

Resin Jointing Sand

Ideal for pool decks, patios and pathways

- Compatible with any paver
- Resin Film Free
- Highly Water Permeable
- Ready-Mixed
- Pool Chemical Tested
- Easy to use

See page 99 for ordering information

Ant Resistant

Weed Resistant

TRASS BED

Paver Bedding

Ideal for all residential and commercial spaces

- Traffic loads up to 40 T
- Extremely Durable
- Water permeable
- Frost resistant
- 10-Year Warranty Options

10-Year Warranty

Vehicle Rated

See page 99 for ordering information

ADHESION ELUTRIANT

Thin Set

Used in combination with TRASS BED

- Extremely Durable
- Polymer-enhanced
- Contains Trass cement
- Binds to Tile Base

See page 99 for ordering information

No Paver Shifting

Frost Resistant

PROFI-DEKO

Gravel Binder

Ideal for decorative drainage areas

- Washed, dry and dust-free aggregate
- Prevents loose gravel
- For pedestrian & light vehicular loads
- Safe non-slip surface

See page 99 for ordering information

Highly Permeable

D7000

Rock Dust Stabilizer

Ideal for garden pathways and public spaces

- Suitable for aggregates with fines
- Easy topical application
- Reduces erosion on sloped areas
- Prevents dust on gravel surfaces
- Prevents weed growth

See page 99 for ordering information

No Erosion

ADA Compliant

ISATEC ANCHORS

Paver Displacement Tool

Ideal for roads, streets and driveways

- Hot galvanized
- 5-Year Warranty options
- Engineering plans designed by ROMEX
- Eliminate damaged/replacement of pavers

See page 99 for ordering information

No Paver Shifting

5-Year Warranty

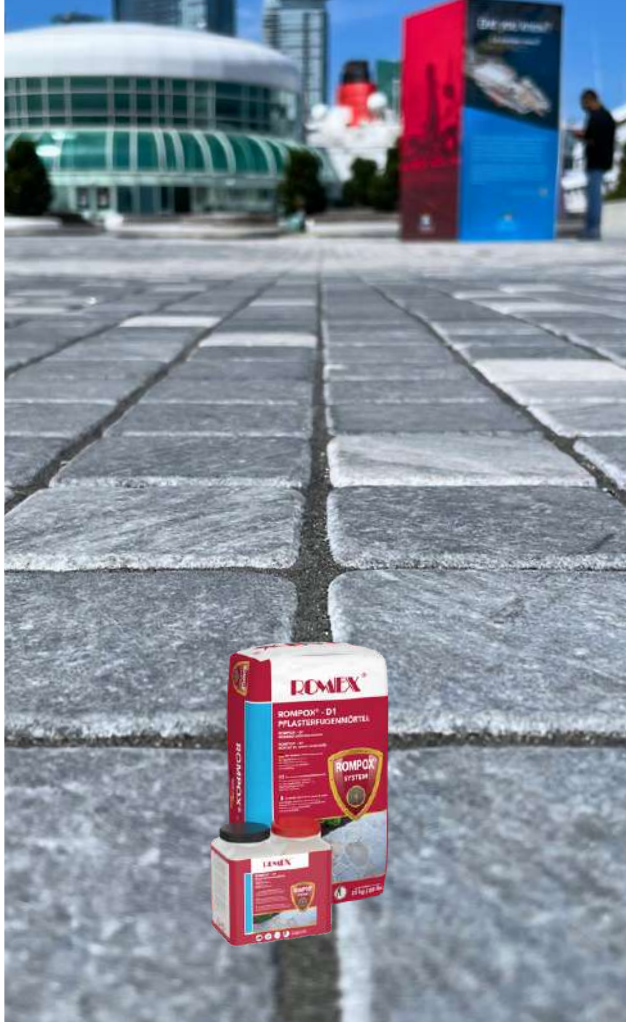

GROUT KIT

Joint Installation Tools

For installing ROMEX Jointing Products

- 2 Squeegee heads
- Hand squeegee
- Medium bristle broom head
- Soft bristle broom head
- Hand broom
- Small hand shovel
- Protective tape
- Gloves
- Safety Glasses

See page 99 for ordering information

D1

Commercial Resin Jointing

Ideal for plazas & medium traffic loads

- For traffic loads up to 7.5 T
- Self-compacting
- Pressure washer safe
- Increased pouring capacity & water emulsifiable

See page 99 for ordering information

Vehicle Rated

FLEX JOINT

Flexible Resin Jointing

Ideal for parking lots & permeable pavers

- Vehicle loading up to 25 T
- Ideal for unbonded construction
- Bonded performance on unbonded application
- Used in combination with our ISATec ANCHORS 5-year warranty

See page 99 for ordering information

Extremely Flexible

D4000 HR

Pothole & Road Repair

Ideal for pothole patches & curb replacement

- For Heavy Traffic Loads (>25t)
- For Joint Depths from 3/8" | 10 mm
- 2 Component Epoxy Resin
- Quick Reopening for Traffic
- Can be Applied During Drizzle
- Can be Applied down to -10 °C | 14 °F

See page 99 for ordering information

Frost Resistant

Easy Install

DIAMOND BLADES

GENERAL PURPOSE BLADES

FEATURES

- Specifically engineered for use with a variety of general purpose cutting conditions
- Standard and premium options available

APPLICATIONS

- Concrete Pavers
- Concrete Block
- Cured Concrete
- Green Concrete (20 Hrs or more)
- Brick/Clay Pavers
- Natural Stone
- Manufactured Stone
- Wetcast
- Retaining Wall Block
- Reinforced Concrete with Wire Mesh

SEGMENT STYLE GUIDE NUMBER AND BLADE SIZE

- Style 1: 4", 4.5", 7", 9", 10", 12", 14"
- Style 3 and 7: 14"
- Style 5: 16.5"
- Style 6: 9"
- Style 8: 4.5", 7"

See page 100 for ordering information

ALL PURPOSE BLADES

FEATURES

- Designed to cut a variety of materials from concrete and asphalt to stone
- Standard and premium options available
- Can be used on a wide variety of materials

APPLICATIONS

- Asphalt
- Clay Pavers
- Natural Stone
- Manufactured Stone
- Wetcast
- Retaining Wall Block
- Concrete Pavers
- Concrete Block
- Reinforced Concrete with Wire Mesh/Rebar
- Cured Concrete
- Green Concrete (20 Hrs or more)

SEGMENT STYLE GUIDE NUMBER AND BLADE SIZE

- Style 4 and 5: 14"

See page 100 for ordering information

ABRASIVE MATERIAL BLADES

FEATURES

- Designed for cutting abrasive materials that wear away most blades quickly
- Premium blade for long-term reliability
- For use on even the most abrasive materials

APPLICATIONS

- Asphalt
- Green Concrete (12 hours or less)

SEGMENT STYLE GUIDE NUMBER AND BLADE SIZE

- Style 2: 14"

See page 100 for ordering information

HARD MATERIAL BLADES

FEATURES

- Fast cutting with minimal spalling
- Standard and Premium Options
- Specifically engineered for use with a variety of general purpose cutting conditions

APPLICATIONS

- Natural Stone
- Concrete Pavers
- Clay Pavers
- Cured Concrete
- Granite
- Bluestone
- Wetcast
- Reinforced Concrete with Wire Mesh/Rebar
- Porcelain*
- High PSI Concrete (5000 or Higher)

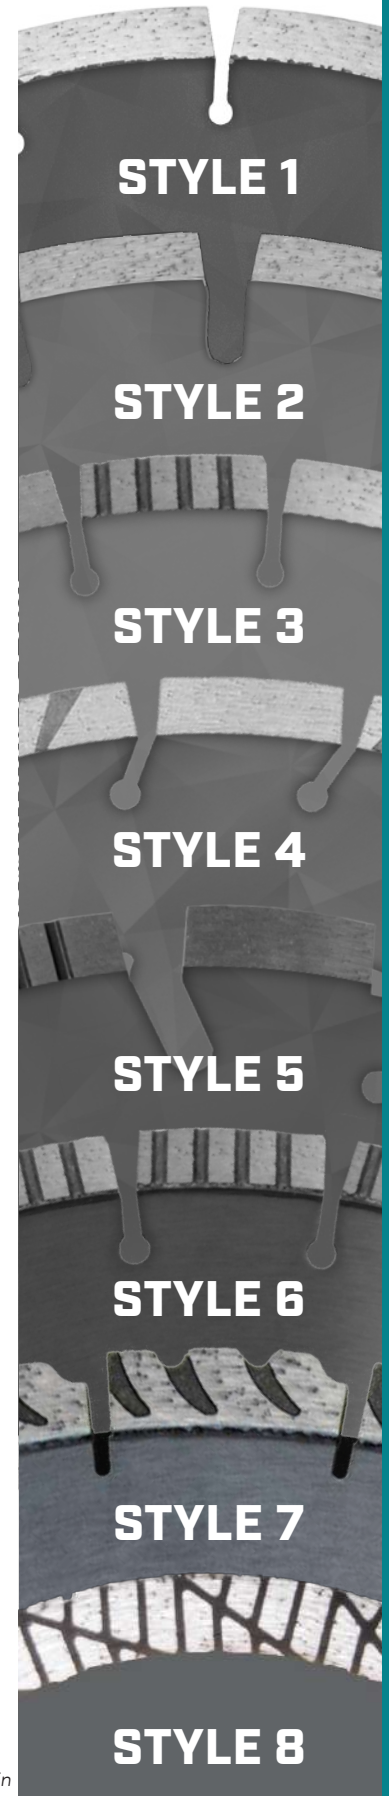

SEGMENT STYLE GUIDE NUMBER AND BLADE SIZE

- Style 3: 14"
- Style 6: 12", 14"
- Style 8: 4.5", 14"

*BPPB blades are the only hard material blades designed to cut porcelain

See page 100 for ordering information

SEGMENT STYLE GUIDE

DIAMOND BLADES

4.5" SINGLE TURBO
CUP WHEEL

FEATURES

- Single turbo style for increased grinding speed
- Ideal for removing material in high spots

See page 101 for ordering information

4.5" DOUBLE TURBO
CUP WHEEL

FEATURES

- Double turbo style for faster/more aggressive grinding and added diamonds/segments for longer life.

See page 101 for ordering information

CUP WHEEL
DIAMOND
CONTACT
AND SPEED

- The **more** diamond contact to the surface will create a smoother grind.
- The **less** diamond contact to the surface will be a more aggressive grind.
- The **faster** you move the grinder the less material the cup wheel will remove.
- The **slower** you move the grinder the more material the cup wheel will remove.

BEST PRACTICE

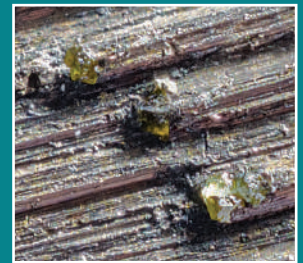

- Lay the cup wheel flat in the surface before turning on the grinder to prevent gouging.
- Keep the cup wheel moving across the surface to prevent overheating.

NO MORE

Bending Over, Stepping on Staples, Bending Staples, or Fatigue with our **Pin Pounder** and **Staple Setter**

FEATURES

- Makes raising and lowering the string-line elevations easy
- Easily visible from a distance, unlike pencil marks
- Take down the line and put it back up without measuring
- Ability to create three to four different lines from the same point
- Built to last from nylon with a brass insert and zinc coated thumbscrew
- Fits round stakes up to 1"

APPLICATION

- Hardscaping
- Surveying
- Fencing
- Concrete and Masonry

See page 103 for ordering information

FEATURES

- 24" tall, 3/4" round steel
- Holes for quick nailing
- Pointed Tip
- Reusable

APPLICATION

- Concrete and Masonry
- Setting Line Levels
- Use with SRW Products StringAlong™
- Plant Support
- Surveying

See page 103 for ordering information

STRINGALONG™ ARE PERFECT FOR: HARDSCAPING, SURVEYING, FENCING, CONCRETE AND MASONRY

The SRW Products StringAlong™ collar makes it effortless to raise and lower elevations. Featuring small teeth and a lock notch to ensure a secure string line. These collars are highly

visible from a distance, making them a better option than pencil marks. Create three to four different lines from various directions simultaneously. It fits round stakes with a diameter of up to 1 inch. You can easily remove and reattach the line without the need for measuring. For optimal results, pair with StringAlong™ Stakes.

- NW4 and NW4.5: 3', 4', 6', 12.5', 15'
- NW6: 6', 10', 12.5', 15'

See page 105 for ordering information

EC8

FEATURES

- Allows high water flow
- Soil-separation for added stability
- High-strength/dimensionally stable
- Rot and Mildew Resistant

APPLICATION

- Heavy Rip-Rap/Boulder Retaining Wall
- Stabilization/Separation
- Underlayment
- Erosion Control

ROLL SIZE OPTIONS

- EC8™: 6', 12.5', 15'

SS5 STABILIZATION/SEPARATION • WOVEN

SS5

FEATURES

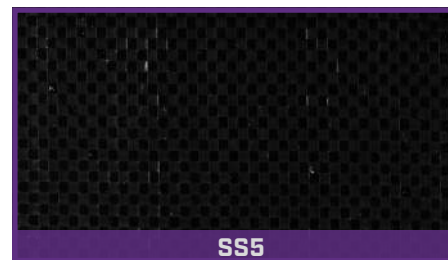

- High Strength
- Meets most DOT specs
- Improves long-term performance of projects
- Excellent puncture and tear resistance
- Can reduce amount of base materials required

APPLICATION

- Stabilize paver projects/underlayment
- Separation between subsoil and base
- Base reinforcement for roads, driveways and sidewalks
- Works great in structural support for retaining wall base

ROLL SIZE OPTIONS

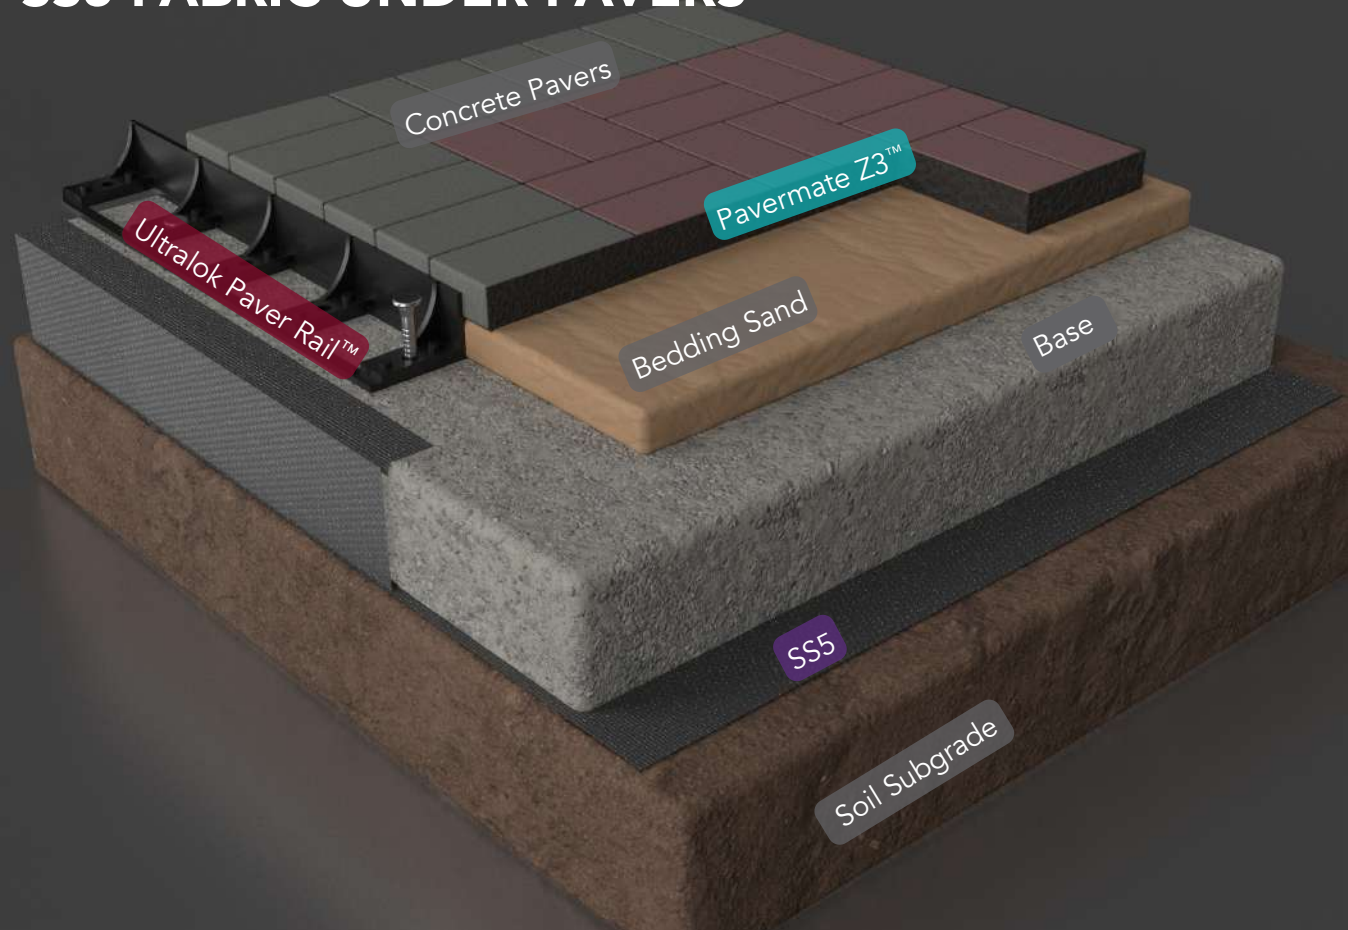

- SS5: 4', 6', 12.5', 15', 17.5'
- Folded Options Available

GEOGRID

RETAINING WALL GEOGRID

BI-DIRECTIONAL

See page 107 for ordering information

FEATURES

- Adds strength and longevity to retaining walls and steep slopes
- Easy-to-handle roll sizes
- Helps prevent wall failure
- Provides excellent load transfer

APPLICATION

- Retaining Walls
- Steep Slopes
- Sub-Grade Stabilization
- Bi-Directional

ROLL SIZE OPTIONS

- *Universal:* 3', 4', 6'
- *3 Series:* 4', 6', 12'

UNI-DIRECTIONAL

See page 107 for ordering information

FEATURES

- Adds strength and longevity to retaining walls and steep slopes
- Helps prevent wall failure
- Provides excellent load transfer

APPLICATION

- Retaining Walls
- Steep Slopes
- Uni-Directional

ROLL SIZE OPTIONS

- *5-11 Series:* 6', 12'

FEATURES

- Provides excellent stress transfer on roadway projects
- Stabilizes and Reinforce Road Base
- Increases Road Life-span
- Reduce effect of freeze/thaw cycles

APPLICATION

- Sub-Grade Stabilization
- Soft Soils Under Embankments
- Roads
- Driveways
- Parking lots

ROLL SIZE OPTIONS

- Type 1: 12.9' x246'
- Type 2: 12.9' x164'
- 3D Grid T: 12.9' x246'
- 3D Grid HT: 12.9' x246'
- 3D Grid XL: 12.9' x164'

See page 107 for ordering information

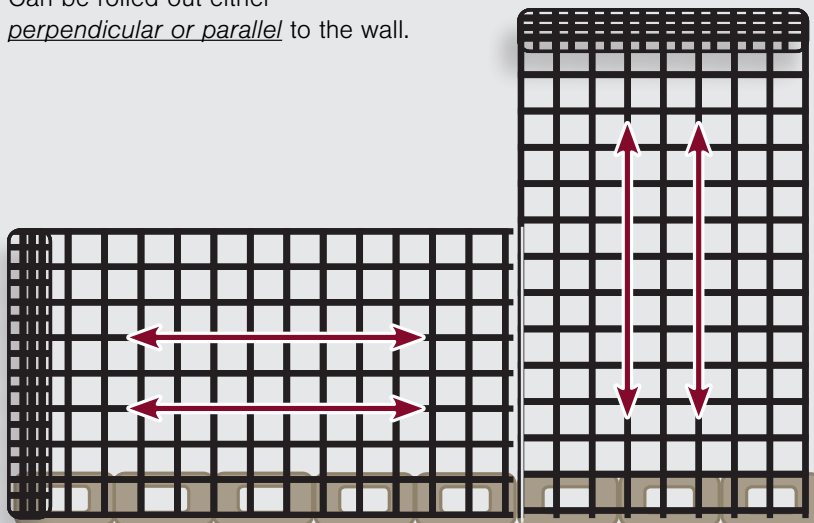

INSTALLING DIFFERENT GEOGRID TYPES

Note: Follow the proper installation. **Never overlap Geogrid in retaining walls.**

Bi-Directional (Universal and 3 Series)

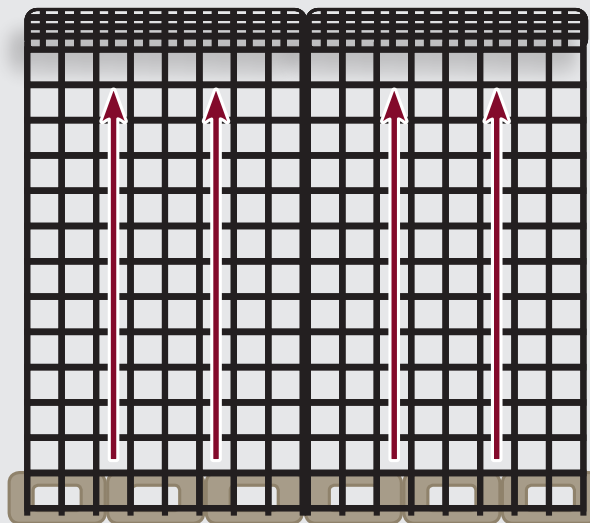

Can be rolled out either perpendicular or parallel to the wall.

Bi-Directional Installation Example: parallel or perpendicular to wall

Uni-Directional (5-11 Series)

Must be rolled out perpendicular to the wall.

Uni-Directional Installation Example: perpendicular to wall

WE REINFORCE HARDSCAPES RIGHT

PAVERMATE Z3™

Fill paver joints of 1/16" - 2" with polymeric sand to create strong, durable & long-lasting results.

SAMPLE ROAD BASE GRID PLACEMENT

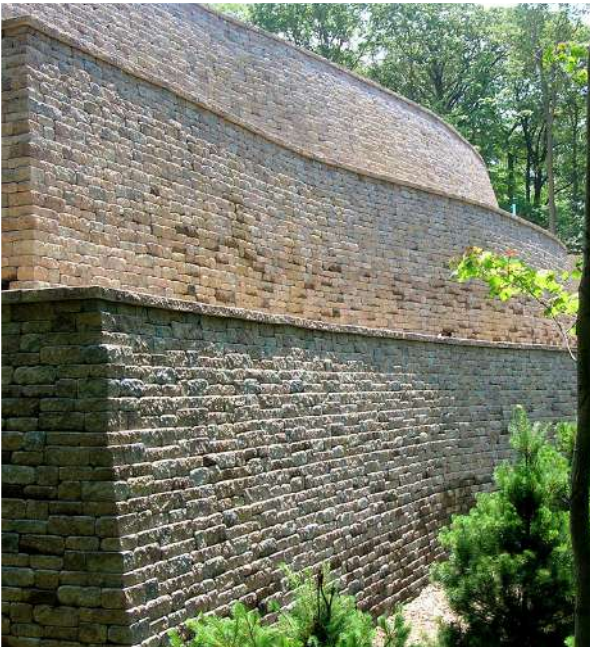

During installation, the Road Base Geogrid should be placed in the direction of travel. It needs to overlap at least 6". Always use staples to keep the grid lying flat.

FACT VS MYTH

You may have heard some differing opinions on geogrid in the hardscape industry. Our team of experts want to make sure you have the solid facts. Scan here to watch.

Avoid Failed Walls

WITH **NO** GEOGRID INSTALLED

What's Geogrid?

Retaining wall Geogrid strengthens retaining walls by reinforcing the soil behind the retaining wall block. This process is similar to how rebar reinforces concrete. The geogrid essentially 'locks' the soil in place, preventing it from shifting and increasing the overall stability of the wall. The reinforced soil becomes part of the retaining wall's weight and mass.

The height threshold for a retaining wall that does not require geogrid may be lower than you think, depending on the site configuration and soil type. Understanding this and using the correct type and amount of geogrid to prevent wall failure is crucial to the success of your project.

Our geogrids are the best choice to add strength and longevity to your hardscape projects while providing superior stress transfer.

BASE REPLACEMENT

HEXABASE™

FEATURES

- Heavy duty interlocking base replacement panel
- 100% virgin HDPE
- 30x stronger than foam panels
- Save time and money on excavation, fill material, and long term maintenance costs
- 100% permeable: will not trap moisture like foam panels
- Conforms to standard guidelines for paver installations
- Designed to be used with traditional or concrete edging
- Highly resistant to freeze/thaw cycles

APPLICATION

- Standard Paver Installations
- Overflow Parking Area
- Grass/Gravel Driveways
- Fire Access Lanes
- Golf Course Cart Paths
- Barn Floor Erosion Control
- Hiking Trail Slope Stabilization
- Feedlot Erosion Control

PANEL DIMENSIONS

- 19.75" x 19.75" x 1.9" to cover 2.7 sq. ft.

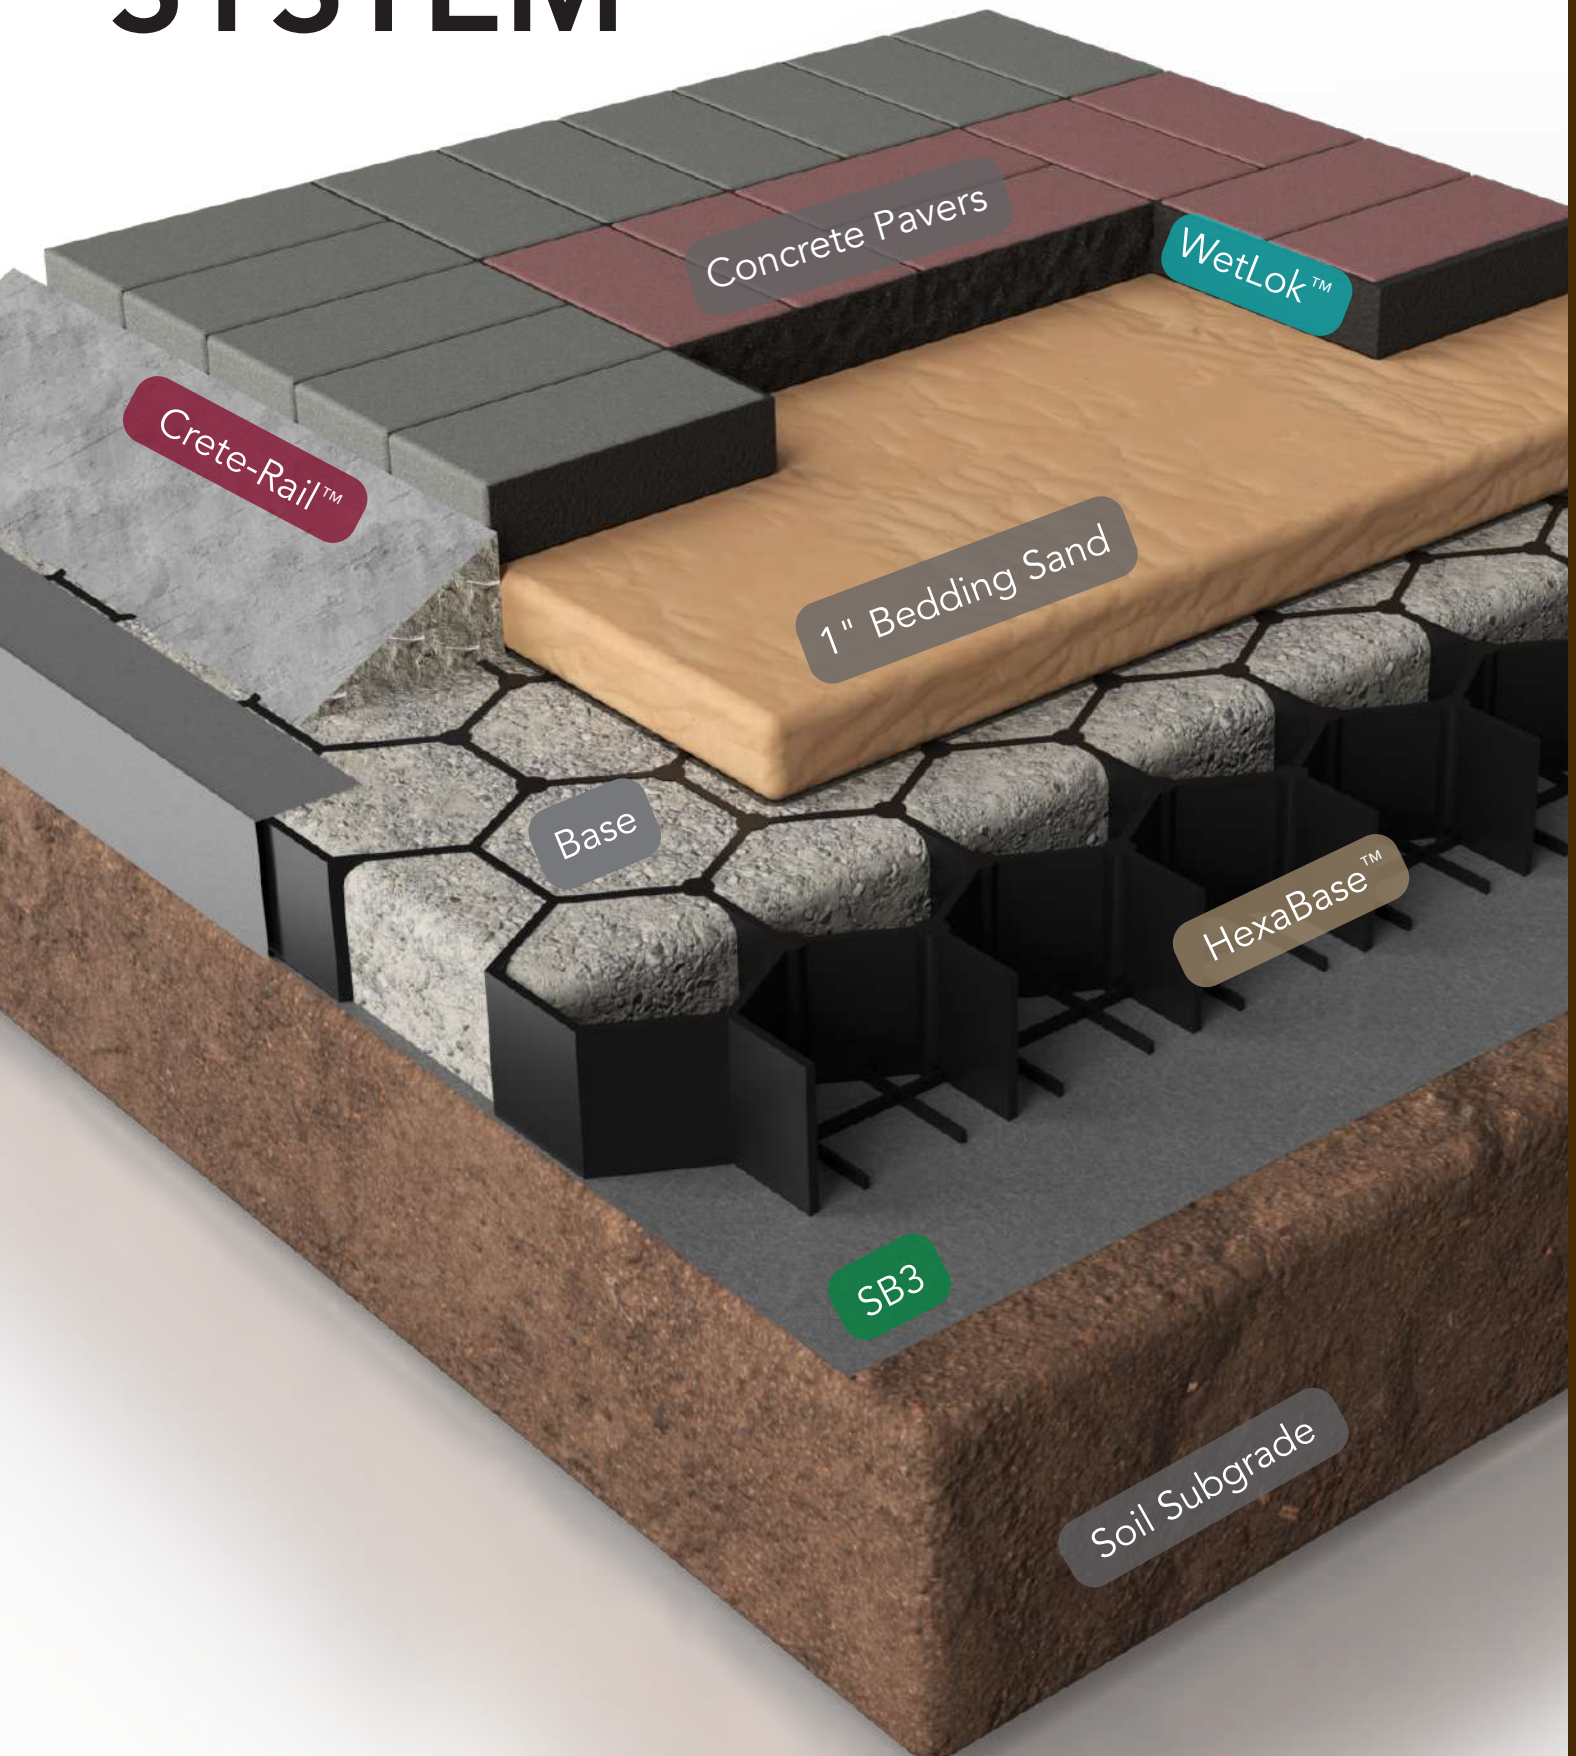

INTERLOCKING BASE REINFORCEMENT

See page 108 for ordering information

**INTERLOCKING KEY
HOLE TO ENSURE
NOTHING SHIFTS**

BASE REPLACEMENT SYSTEM

FEATURES

- Conforms to standard guidelines for paver installation process
- Reduces base excavation and fill up to 50%* in poor base soil
- Significantly reduces the effect of freeze/thaw cycles on driveways
- Installs easily, no special procedures needed
- Strongest driveway grid in the market

APPLICATION

- Paver Driveways
- Asphalt Driveways
- Concrete Driveways
- Gravel Driveways
- Hybrid Installations
- Parking Lots

ROLL SIZES OPTIONS

- Ultra Drive 3D™: 6.5', 12.5',

**Base reduction may vary depending on location/area and soil quality*

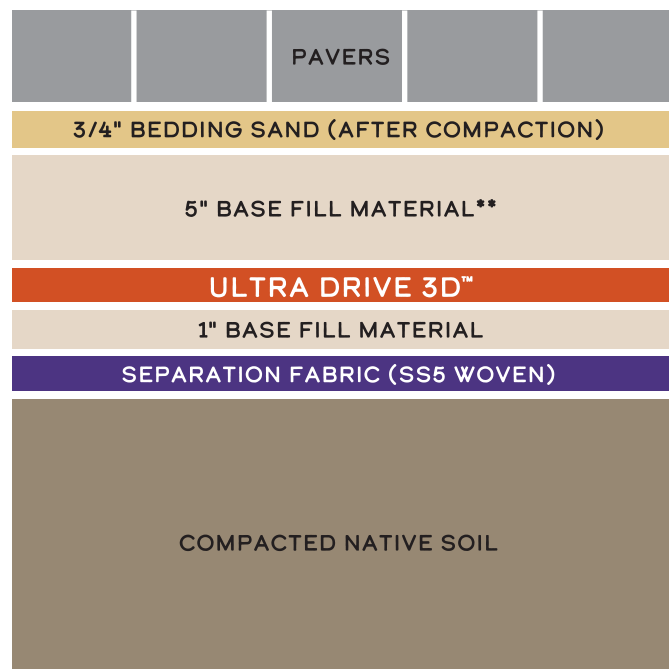

THREE-DIMENSIONAL DRIVEWAY GRID

WALL SYSTEMS AND ENGINEERING

WALL DRAIN PRO®

**MOST
POPULAR**

FEATURES

- A simple, more efficient wall drain
- Visually Pleasing Design
- No round cuts needed
- Works with blocks up to 8" tall

APPLICATION

- Retaining Walls
- Free Standing Walls
- Timber Walls

AVAILABLE IN

BLACK

TAN

GRAY

See page 108 for ordering information

EARTHWORKS™

FEATURES

- Creates a mechanical connection with geogrid
- Works on standard concrete block
- Saves Time and Money
- Provides Strength and Longevity
- Easy to use and install
- Works on any size wall

APPLICATION

- Retaining Walls

See page 108 for ordering information

WALL DRAIN PRO® VS REGULAR DRAIN

A simple plunge cut is all you need for a visually appealing and efficient solution for daylighting drain pipes in retaining wall systems. Comes in multiple color options to match the block. The back end easily snaps into a 4" drain tile.

VS

FEATURES

- Integrates stable fence footings into the support structure of a segmental retaining wall (SRW)
- Maximizes Land Use
- Stackable and Portable
- Easy to Install
- Made with recycled material
- Code compliant: IBC 1015.2, IBC 1607.8.1, and ASCE 7 4.5.1.

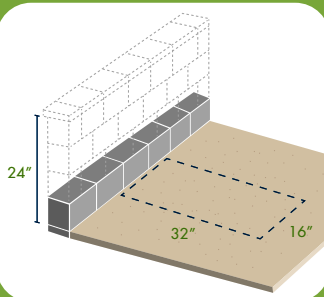

APPLICATION

- Retaining Wall Fencing

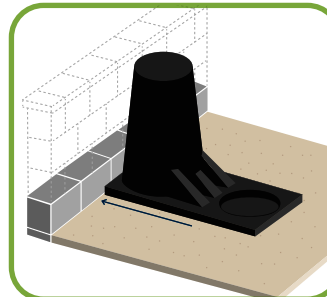

See page 108 for ordering information

SLEEVE-IT[®] by STRATA

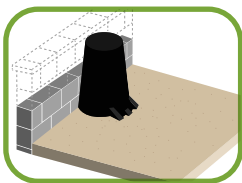

INSTALLATION GUIDELINES

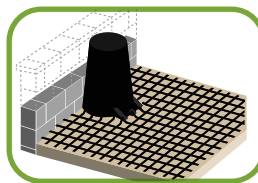

- Prepare a level surface area behind the wall face where the fence post is to be placed.
- The area should be approximately 16" wide by 32" deep.
- The elevation of the base of the Sleeve-It should be approximately 24" below the proposed top of the wall (*not including the capstone*).

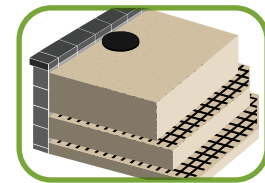

- Place the Sleeve-It unit on the level surface in an upright position with the front edge of the unit flush against the back of the wall.
- Multiple units should be spaced in accordance with fence specifications.
- *Do not remove perforated lid until ready to place post.*
- *Do not step on perforated lid, as this could cause serious bodily injury.*

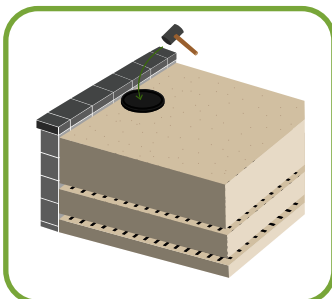

- Encapsulate & stabilize the Sleeve-It unit by placing & compacting sufficient backfill material layers as required.

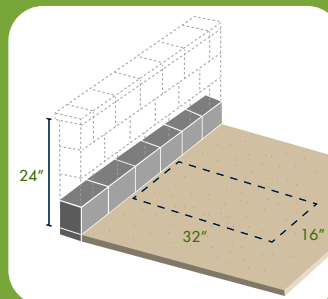

- If geogrid is required, slit the geogrid perpendicular to the wall face just enough to fit around the base of the unit while ensuring that the geogrid remains properly attached to the wall.

- Continue the backfilling process as directed until the material reaches the top of the tower.

- Punch the perforated lid using a mallet or hammer to expose the inside of the Sleeve-It unit. Detached lids can be left inside the unit or discarded prior to pouring of infill material.

- Place post through the exposed area and rest on the flat ground surface area inside the Sleeve-It cavity.
- Ensure that the post is upright and level and hold in place while carefully pouring infill material, such as concrete, through the exposed cavity.
- Follow guidelines specified by infill supplier.
- Concrete is highly recommended as infill material.

FREE PRELIMINARY DESIGNS

GET STARTED TODAY

1. Download a form from our website:

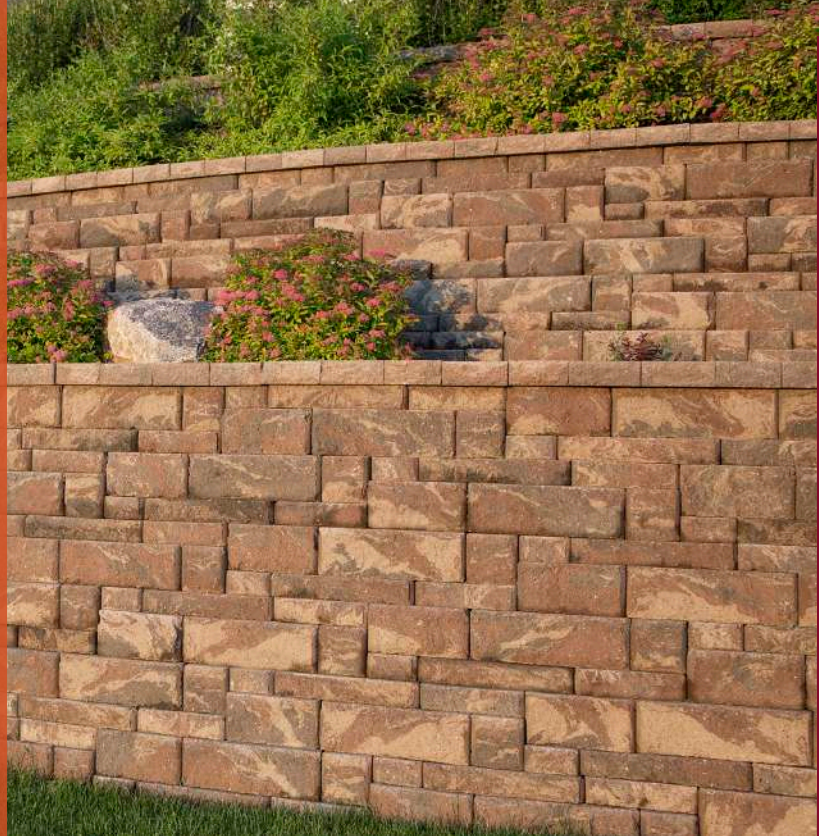

2. Email completed form to
CustomerService@SRWProducts.com

PRELIMINARY DESIGN FORM NOTES:

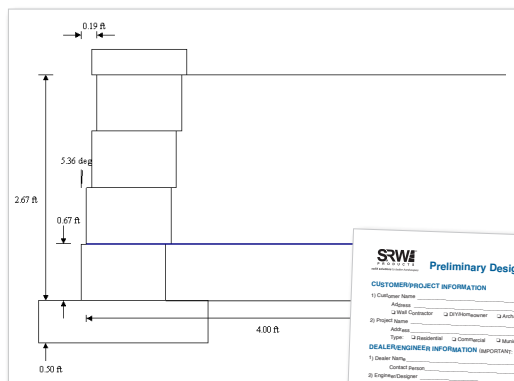

- ▶ If the project is simple & just cross sections are required, we may be able to get enough information over the phone
- ▶ For more complex site configurations, a sketch or grading plans may be needed
- ▶ If a material estimate is desired, a more complete sketch or grading plan will be needed

*Interested in more ways we can help?
Ask us about Stamped Engineering for under \$600!*

TAKE THE GUESSWORK OUT OF RETAINING WALL ESTIMATES.

Use our FREE preliminary wall design service to prepare accurate retaining wall estimations using SRW Products. Preliminary designs can be performed with OVER 70 different types of retaining wall units.

DRAINAGE

WALL DRAIN PRO®

**MOST
POPULAR**

FEATURES

- A simple, more efficient wall drain
- Visually Pleasing Design
- No round cuts needed
- Works with blocks up to 8" tall

APPLICATION

- Retaining Walls
- Free Standing Walls
- Timber Walls

AVAILABLE IN

BLACK

TAN

GRAY

See page 110 for ordering information

DRAINFIELD

FEATURES

- Commercial-grade polyester geotextile drainage fabric
- High Puncture Resistance
- High Water Flow
- Excellent Filtration

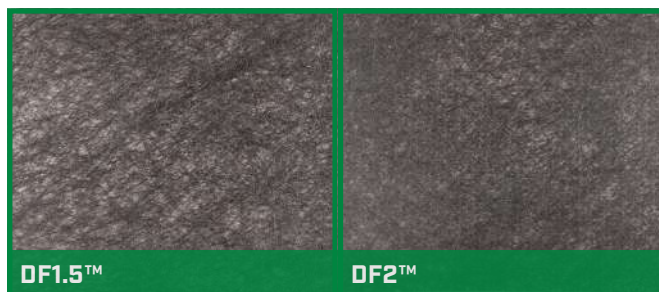

APPLICATIONS

- Septic Systems
- Drainfields
- French Drains

ROLL SIZES OPTIONS

- DF1.5: 3', 4', 5', 6', 12'
- DF2: 3', 4', 6', 12'

See page 102 for ordering information

See page 110 for ordering information

FEATURES

- Superior alternative to pipe and stone drainage systems - 10x inflow capacity
- Reduce and redirect subsurface water
- Reduce subsurface hydrostatic pressure
- Creates continuous flow path to designated drainage exits
- Effective in vertical and horizontal applications
- Single or double sided available

APPLICATION

- Structural Walls
- Under Hardscape and Paving
- Lagging and Shoring Walls
- Shotcrete and Guniting Walls
- Embankments
- Synthetic Turf

See page 102 for ordering information

See page 110 for ordering information

FEATURES

- Superior alternative to pipe and stone drainage systems - 10x inflow capacity
- 70% less excavation (Excavation volume per foot for standard pipe and stone drain)
- Reduce and redirect subsurface water
- Reduce subsurface hydrostatic pressure
- Creates continuous flow path to designated drainage exits
- Fully wrapped dimple strip drain

APPLICATION

- Lawn and Turf Drainage
- Athletic Fields - Natural or Synthetic Turf
- Playgrounds
- Roadway Edge Drain
- Soil Consolidation

See page 102 for ordering information

See page 110 for ordering information

FEATURES

- 12.5 gpm/ft water flow rate
- Low-profile design, 0.315" (8mm)
- 5,200 psf compressive strength
- Chemical, rot, and root resistant
- 50' rolls available in 6', 6.5', and 8' width

APPLICATION

- Foundation Walls
- Structural Slabs

See page 102 for ordering information

See page 110 for ordering information

EROSION CONTROL

STRAW BLANKETS

FEATURES

- Single or double sided-options
- Weed-Free Straw
- Erosion control up to one year
- Improves Seed Germination
- Serves as a mulching layer
- Natural or Photodegradable

APPLICATIONS

- Single Sided: 3:1 Slope
- Double Sided: 2:1 Slope
- Cover Septic Systems
- Highway Slopes
- Embankments
- Shoreline Stabilization

ROLL SIZES OPTIONS

- Single Sided: 4' and 8'
- Double Sided: 8'

See page 110 for ordering information

EXCELSIOR BLANKET

FEATURES

- 100% Aspen Wood
- Improves Seed Germination
- Natural or Photodegradable
- Erosion control up to 12 months

APPLICATIONS

- Erosion Control Slopes
- Cover Septic Systems
- Highway Slopes
- Embankments
- Shoreline Stabilization

ROLL SIZE

- 8'

See page 110 for ordering information

COCONUT/STRAW BLANKETS

FEATURES

- 100% coconut, or straw and coconut mix options
- Erosion control up to 36 months
- Improves Seed Germination
- Serves as a mulching layer
- Natural or Synthetic Net

APPLICATIONS

- Erosion Control Slopes
- Double Sided 30% Coconut/ 70% Straw: 2:1 Slope
- Double Sided 100% Coconut: 1:1 Slope
- Improves Seed Germination
- Cover Septic Systems
- Highway Slopes
- Embankments
- Shoreline Stabilization

ROLL SIZE

- 8'

See page 110 for ordering information

FEATURES

- Improves Seed Germination
- Erosion control greater than 36 months
- Turf reinforcement for more severe slope applications

APPLICATIONS

- Erosion Control Slopes
- 1:1 Slope
- Highway Slopes
- Embankments
- Shoreline Stabilization

ROLL SIZE

- 8'

See page 110 for ordering information

TURF REINFORCEMENT MAT

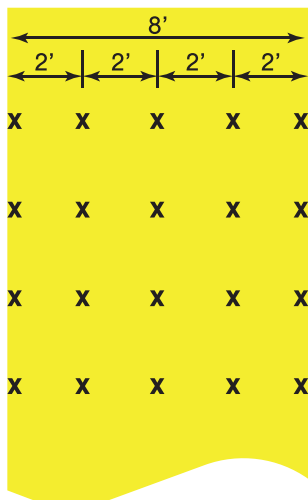

It can also be used around structures to help prevent washouts caused by rain coming off the roof. This is a permanent installation through which grass will still grow.

EROSION CONTROL BLANKET STAPLE PLACEMENTS

Reference these diagrams for the correct staple placements upon installation of any of our erosion control blankets.

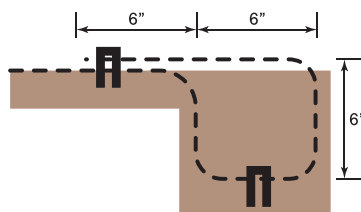

STAPLING PATTERN

FIG. D

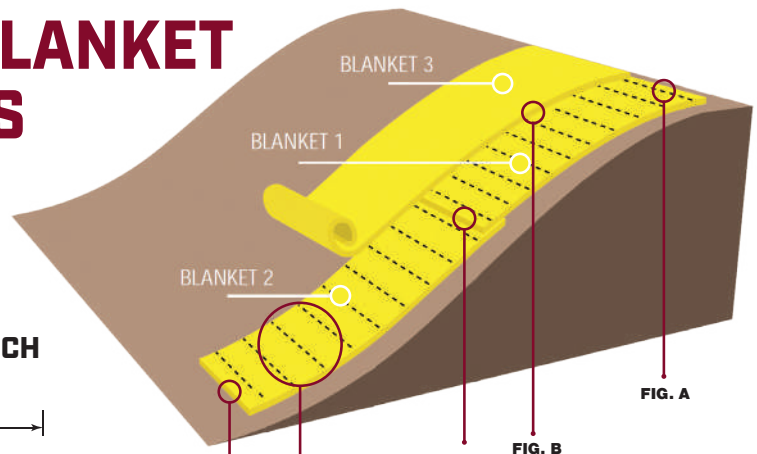

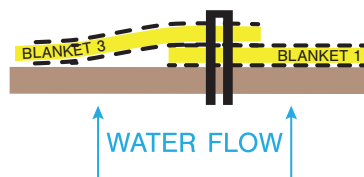

ANCHOR TRENCH

FIG. A

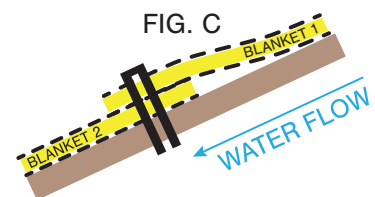

DOWNSLOPE SEAM

FIG. B

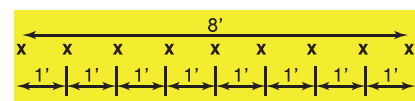

BLANKET SEAM

FIG. C

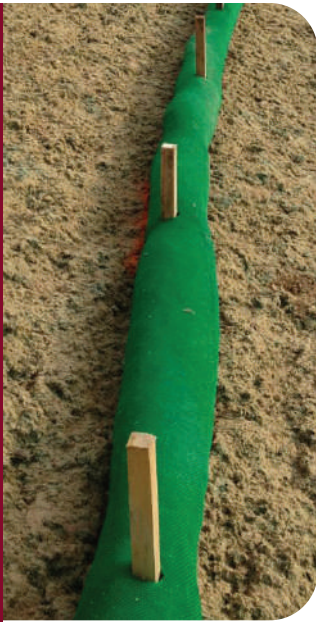

TERMINAL END

FIG. E

SILT SOCK

**FEATURES**

- Environmentally friendly erosion control for wetlands, waterways, and general areas under construction
- Filters 90% of sediment from runoff
- Easy Install, Reusable
- No equipment needed to install
- Resists and prevents wash out in sloped ditches or slopes

APPLICATIONS

- Erosion Control Slopes
- Cover Septic Systems
- Highway Slopes
- Embankments
- Shoreline Stabilization

OPTIONS: 8" Roll

See page 110 for ordering information

STRAW WATTLES

**FEATURES**

- Use these weed-free wattles over bare soil or in conjunction with erosion control blankets, on steep slopes, around drains for inlet protection or as perimeter control for job sites
- Helps stabilize slopes by slowing, spreading and filtering overland water flow
- Flexible and conforms to the surface
- Resists and prevents wash out in sloped ditches or slopes

APPLICATIONS

- Erosion Control Slopes
- Cover Septic Systems
- Highway Slopes
- Embankments
- Shoreline Stabilization

OPTIONS: 9" and 12" Roll

See page 110 for ordering information

ROCK LOG

**FEATURES**

- Designed to be filled on site
- A woven monofilament tube sock filled with rock or aggregate to minimize runoff on hard surfaces or landscape areas
- First & last line of defense for filtration in roadways

APPLICATIONS

- Hard Surfaces
- Protect Curb Inlets
- Provides a Barrier Against Sediment Washout

See page 110 for ordering information

WHEN PURCHASING OUR FABRICS, GRIDS, AND BLANKETS, REMEMBER THAT THE ACCESSORIES ARE EQUALLY IMPORTANT

When laying down our industry-leading fabric, blankets, and grid, it's crucial to secure them in place with their essential counterparts, SRW Products Staples and Pins. These accessories are indispensable for a successful installation. Use our Staple Setter and Pin Pounder to put the steel down quickly and with ease.

JUTE MESH

FEATURES

- Great for environmentally sensitive erosion control applications
- Biodegradable blanket woven from spun jute yarns
- Typically provides 6 - 9 months of erosion control
- Up to 70 - 75% open area
- Large aperture size to minimize harm to wildlife

APPLICATIONS

- Recommended slope is 3:1
- Slope protection
- Re-vegetation

See page 110 for ordering information

EROSION CONTROL

STRAWMAX

FEATURES

- Comprised of chopped agricultural straw and natural guar gum tackifier
- Pre-chopped for easy hand spreading
- Safe for use around home, children and pets
- Biodegradable
- Prevent Soil Erosion
- Improve Seed Germination

APPLICATIONS

- Ideal for lawn repairs
- Cover Septic System
- Embankments

Coverage: up to 500 sq. ft. per bale

See page 110 for ordering information

SILT FENCE AND STAKES

**FEATURES**

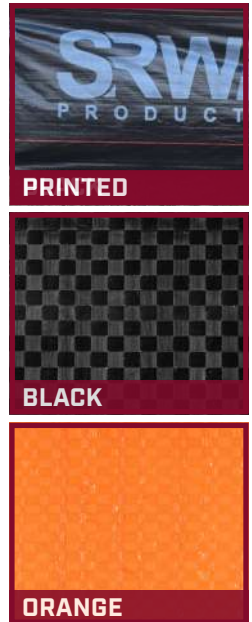

- Silt Fence is a woven fabric that temporarily controls sediment on construction sites
- Silt Fence comes in bulk or pre-attached posts
- Stakes are pointed for easy install
- Protects water quality in nearby streams, rivers, and lakes from sediment in storm water runoff

APPLICATIONS

- Around Construction Sites

**DOT options available, contact your Territory Sales Representative for more information*

See page 111 for ordering information

WOOD STAKES

**FEATURES**

- Made from Hardwood
- Stakes are pointed for easy install

APPLICATIONS

- Silt Fence
- Straw Wattle
- Silt Sock

OPTIONS

- ▶ 40" and 48"

See page 111 for ordering information

TURBIDITY BARRIER

**FEATURES**

- ▶ Meets DOT specifications
- ▶ Tough Guy® Technology

APPLICATIONS

- ▶ Construction Sites
- ▶ Ponds
- ▶ Shallow Lakes
- ▶ Small Streams/Marshes
- ▶ Current velocities of less than one foot per second

OPTIONS

- ▶ **Type 1 DOT:** 3', 5', 10'
- ▶ **Type 2 DOT:** 3', 5', 10'
- ▶ **Type 3 DOT:** 3', 5'
- ▶ Accessories

See page 111 for ordering information

Soil erosion during construction can find its way in to the city's water system through storm sewers, grates and inlets. Because of the potential danger to our environment and sewer systems, the government has required contractors to use a professional-grade inlet filter and to erect their own sediment control solutions and measures when starting any new project. SRW Products partners with Dandy Products to ensure compliance on your small and large projects.

FEATURES

See page 111 for ordering information

- Unique Patented Designs
- Easy-to-see bright orange solutions
- Easy to install, maintain, inspect and reuse

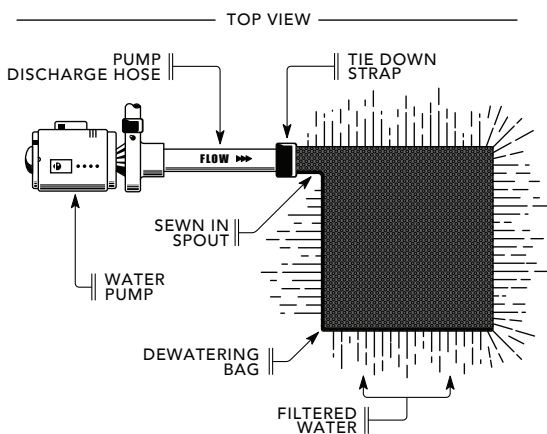

APPLICATIONS

- Around Curbs and Gutter Inlets

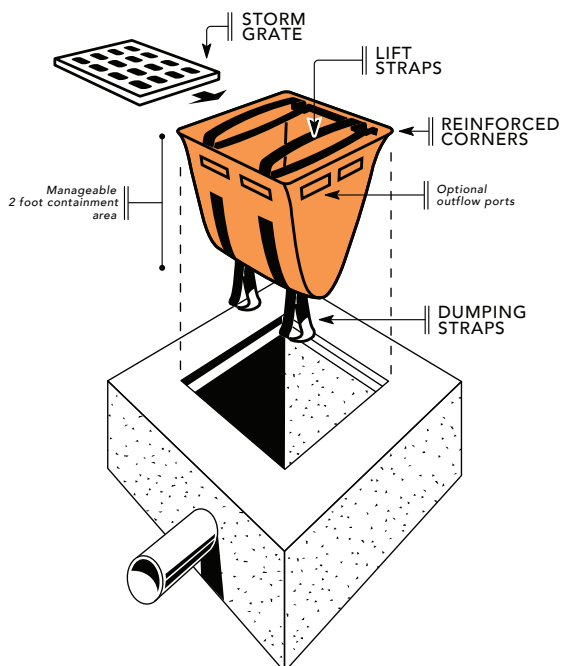

Contact your local Sales Representative for custom sizes or overflow ports.

DANDY BAG®

DANDY CURB SACK™

DANDY CURB BAG™

PLANT CARE

BURLAP

FEATURES

- 100% Natural
- Biodegradable
- Retains Moisture
- Folded Edges

APPLICATIONS

- Plant Protection
- Wind Screen
- Tree Wraps
- Erosion Control
- Seed Germination
- Arts and Crafts

ROLL SIZE OPTIONS

- Burlap: 3', 4', 6'

See page 112 for ordering information

SRW GROW BAG™

PLANTER

BULK CONTAINER

FEATURES

- Adds Growing Space
- Easy to move around
- Cost Effective
- Prevents Over-Watering
- Regulates Temperatures
- Easy to Use
- Collapsible for Storage
- Reusable
- Reinforced Stitching
- High Strength

APPLICATIONS

- **Planter:** Fruit, Vegetables, Plants, Flowers, Herbs, Cannabis, Commercial Crops
- **Bulk Containers:** Mulch, Salt, Dirt, Feed, Seed, Soil, Rock, and Gravel

COVERAGE

- 5 gal: 0.75 cu. ft. soil
- 10 gal: 1.5 cu. ft. soil
- 15 gal: 2.25 cu. ft. soil
- 20 gal: 3 cu. ft. soil

See page 112 for ordering information

TREE WATERING BAG

FEATURES

- Protect your tree investments and optimize growth with slow release
- Holds up to 15 gallons
- 5-8 hour water release
- Commercial Grade Material
- No tools required for installation
- Easy to Install
- Save Time and Money

APPLICATIONS

- Ideal for tree trunks up to 4" in diameter or chain multiple bags together for larger trunks

See page 112 for ordering information

TREE WATERING RINGS

FEATURES

- Protect your tree investments and optimize growth with slow release
- Holds up to 15 gallons
- 6+ hour drip time
- Two valves for even distribution
- Reduces transplant shock and drought stress

APPLICATIONS

- Ideal for tree trunks up to 6" in diameter

See page 112 for ordering information

ACCESSORIES

6 MIL. POLY SHEETING

FEATURES

- Redirect water flow
- Easy to cut, Easy to use
- Tear Resistant
- Weed Control

APPLICATION

- Runoff Mitigation
- Moisture retention for concrete curing
- Project protection from rain

SIZE OPTIONS

- 6', 10', 20' widths
- 100' Length

See page 112 for ordering information

STRETCH WRAP

FEATURES

- SRW Products offers a range of stretchable, highly elastic plastic film that keeps items tightly bound.

OPTIONS

- 70 and 120 ga.

See page 112 for ordering information

FEATURES

- Quickly attach to a variety of handled tools like Push Brooms, Squeegees, Deck Brushes, and more.
- Sturdy, all-metal design
- Works with any garden hose
- Quick-connect adapters for easy tool-swapping
- Shut-off valve for convenience and flow control

APPLICATIONS

- WetLok™ Installation
- Patio Cleaning with SRW Products Cleaners
- Garage Floors
- Decks
- Pool Deck
- Driveway
- Siding
- Outdoor Jobs

**TRY
WITH
WETLOK™**

See page 112 for ordering information

TURNING A JOB FOR *two* INTO A JOB FOR *one*

JETSweep™

QUICK CONNECT

Quickly switch from Jet Sweep™ to a sprayer nozzle if needed throughout your job.

NOZZLE

Fan nozzle provides a wide slurry to assist in WetLok™ installation or a cleaning job.

SHUT OFF

Start & stop water flow with ease. Also acts as a flow control if water pressure is too high.

ORDERING & RESOURCES

ADHESIVE DISPLAY

FEATURES

- Dimensions: 67" H x 16" W x 16" D
- Quality heavy-duty construction, to easily handle SRW Products adhesives
- Two Wire Shelves
- Bottom Storage Shelf
- Sign Channel to hold product labels (ordered separately)
- Powder coat finish: semi-gloss black
- Header Sign Set Conveniently packaged with the display

Contact your Territory Sales Representative today about the qualifications required to get a display.

See page 92 for ordering information

CLEANER/SEALER DISPLAY

FEATURES

- Dimensions: 72" H x 28" W x 24" D
- Quality heavy-duty construction, to easily handle SRW Products cleaners and sealers
- Sign Channel to hold product labels (ordered separately)
- Powder coat finish: semi-gloss black
- Header Sign Set Conveniently packaged with the display

Contact your Territory Sales Representative today about the qualifications required to get a display.

FIND AN *Authorized Dealer* NEAR YOU

We're constantly partnering with new reputable dealers across North America to ensure you always have access to the best products, regardless of your project location. Scan the QR Code below to find your closest SRW Products dealer. Although our distribution centers are some of the fastest in the industry, there's always a chance that our dealers ran out of our products recently. We recommend contacting the dealer in your area before making a trip to their location to ensure they have the product(s) in stock you are looking for.

Do you have a favorite dealer who isn't in our network? Call them and tell them about us. Our responsiveness and quick turnaround time mean they can quickly carry our extensive product line.

DEALER NETWORK

Our products are available from leading hardscape suppliers across the United States and Canada. Over 5,000 dealers turn to SRW Products for the consistent quality and performance they have come to trust.

Stay
CONNECTED!
